

Fort Young Hotel

Environmental & Social Policy:

Fort Young Hotel has a proud historical legacy which recognizes the role that environmental quality and biodiversity play in the sustainability of the tourism industry and we seek to develop a framework for continuous monitoring, reporting, analysis and improvement of sustainable indicators to ensure maximum performance levels.

Water Conservation Practices:

List the top two water saving practices your property implements:
1) Foot Pedal Faucets on all kitchen sinks
2) Preventative maintenance program

Energy Conservation Practices:

List the top two energy saving practices your property implements:
1) Educate staff to turn off lights and air when rooms are not in use
2) Placed new tent cards in all rooms to educate guests. These cards read: "One person can change the world"

Waste Management Practices:

List the top two waste minimizing practices your property implements:
1) All photocopying is double sided
2) Create notepads from used paper

Employee and Guest Participation:

List the top two ways in which you encourage employee and guest participation/education:
1) Monthly staff training
2) New tent cards for the linen and towel re-use program

Community Based Activities:

List the top two environmental/social projects/programs in the past year:
1) Beach cleanups at the hotel
2) This summer we focused on "decomposition rimes required for various man-made products"

Environmental Tours/Activities:

List any environmental/social tours or activities that guests could partake in while staying with you:
1) The Rainforest Aerial Tram
2) Diving tours
